VERTICA

Vertica Big Data Conference 2020
Agenda

	Tuesday – March 31
10:00am – 11:30am EDT Keynote Session	• Winning BIG with DATA • How Modern Infrastructure Accelerates Modern Analytics • The Pure Vertica Symphony live @ AT&T everyday
12:00pm	• Vertica in Eon Mode: Past, Present, and Future – brought to you by Pure Storage • The Data-Driven Prognosis: Creating Predictive Models to Maximize Clinical System Availability
1:30pm	• Optimizing Query Performance and Resource Pool Tuning • Model Management and Data Preparation
3:00pm	• Migrating Your Vertica Cluster to the Cloud • How The Trade Desk Reports Against Two 320-node Clusters Packed with Raw Data
4:30pm	• Vertica @ Uber Scale • A Technical Overview of Vertica Architecture

Wednesday – April 1

9:30am
- The Next-Generation Data Underlying Architecture of Vertica for Top Performance at Extreme Scale
- A Deep Dive into the Vertica Management Console Enhancements and Roadmap

11:00am
- Extending Vertica with the Latest Vertica Ecosystem and Open Source Initiatives
- Keep Data Private – Prepare and Analyze Without Unencrypting with Voltage SecureData for Vertica

12:30pm
- End-to-End Security
- The Shortest Path to Vertica – Best Practices for Data Warehouse Migration and ETL

2:00pm
- Putting Complex Data Types to Work
- Autonomous Log Monitoring: Zero-Touch Incident Detection and Root-Cause Indication for Any Application

3:30pm
- Vertica Database Designer – Today and Tomorrow
- The Road to Autonomous Database Management: How Domo is Delivering SLAs for Less

5:00pm
- Sizing and Configuring Vertica in Eon Mode for Different Use Cases
- Tapping Vertica's Integration with TensorFlow for Advanced Machine Learning
